

ISAAH Scientific Art Competition

We are holding a Scientific Art Competition during the ISAAH!

Artwork should represent some aspect of aquatic animal health. You can enter up to 2 times in **each** of the three art categories:

- i. **Macroscopic photograph** = macro parasites, hosts, disease signs
- ii. **Micrograph** = light, stained, unstained, EM
- iii. **Artistic** = drawing, painting, graphic or photo that has been substantially altered ("Photoshopped")

Print artwork ~8" x 10" (~20 x 25cm). Include a caption with a short description, the image type, and your name and affiliation (see examples below).

Submit your entries EITHER at the meeting when you pick up your registration packet, OR you may mail them in advance (need to be received by Friday August 29) to: Sascha Hallett, 226 Nash Hall, Oregon State University, Corvallis, Oregon 97331 USA

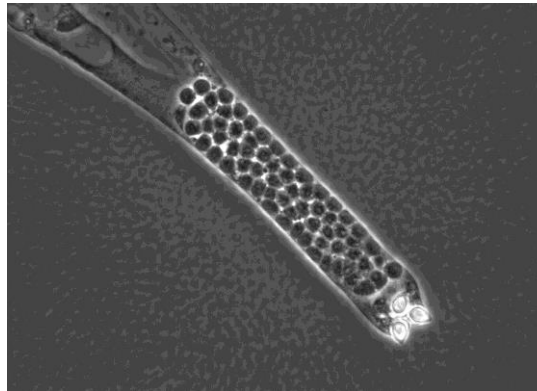

There will be dedicated poster boards for the art competition and entries will be on display throughout the Symposium. There will be one prize of \$50 for each category, decided by popular vote. Winners will be announced during the Award's Lunch on Thursday, September 4. Examples of images and captions:

Category I: macroscopic photograph

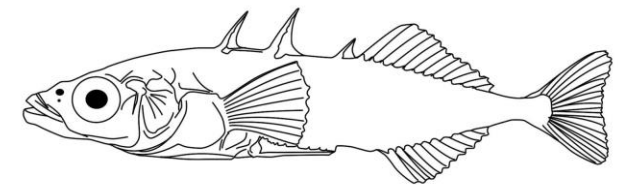

Cysts of *Myxobolus* sp. in common carp.
Stephen Atkinson, Oregon State University, USA

Category II: micrograph

Myxobolus cerebralis actinospore ("TAM")
Nomarski interference illumination.
Stephen Atkinson, Oregon State University, USA

Category III: non-photograph

Threespine stickleback (*Gasterosteus aculeatus*).
Digital illustration.
