

M E M O R A N D U M

TO: Members of the Professional Fisheries Association of New York
FROM: John D. Gould, President
Re: October 1966, Meeting

The Conservation Department's Bureau of Fish will hold its fall meeting at the Holiday Inn, Rome, New York, October 4 - 6. Bureau personnel will gather at the Holiday Inn for a dinner to be given at 7:00 P. M. Tuesday, October 4. Non-department people are welcome to attend. Tickets for the meal are \$4.00 (this includes tip). Make your reservations with Neil Ehlinger, Fisheries Research Laboratory, Rome, New York. Telephone 315-337-0910.

Immediately after dinner the Professional Fisheries Association of New York will hold a business meeting. In addition to several reports, the program for the February 1967 meeting must be outlined. Plan to arrive in time to attend a "Dutch Treat" cocktail hour before dinner.

JDG/mbd

The Professional Fisheries Association of New York held a meeting at the Holiday Inn, Rome, New York on October 4, 1966. President John Gould called the meeting to order at 8:20 P.M.

Committee on Professional Standards. Chairman Bill Bentley gave an informal report on the thoughts of his committee. It was their feeling that all persons should be included, that this organization should have professional standards and recognition from these standards. There was general discussion from the floor. Howard Loeb moved that the Professional Standards Committee be carried forward and charged with the responsibility of drawing up a schedule of professional standards. The motion was seconded by Eli Dietsch. Carried.

Committee on Joint Annual Meeting. Chairman Robert Zilliox reported that contact with the Wildlife and Forestry groups indicated that they were interested in a joint meeting. President John Gould proposed that this committee be continued to further investigate the possibility of joint meetings and report at the February meeting.

Program Committee. In the absence of Chairman Earl Stiles, Bill Bentley expressed the committee feelings that the P.F.A.N.Y. meetings would serve as a good reviewing group for papers which might be presented at other society meetings.

In general discussion Bill Bentley said the state would try to continue to aid by paying expenses at these meetings. Joint meetings would have advantages in this respect.

There was a general group consensus that P.F.A.N.Y. should move forward.

A motion was made by Bill Bentley that the Committee on Joint Annual Meeting serve as a delegation from this group to attend the Wildlife and Forestry Societies meetings. Seconded by Jim Lindsey and carried.

Jim Lindsey moved the meeting be adjourned. Carried. Meeting adjourned at 10:00 P.M.

Respectfully submitted,

William D. Youngs, secretary

Minutes of the Annual Meeting
of the
New York Chapter of the American Fisheries Society
6 December, 1968, Holiday Inn, Syracuse, N.Y.

1. The meeting was called to order at 5:25 PM by President Udell Stone. A moment of silent prayer was observed in memory of Robert Zilliox. No guests were attending the meeting. A quorum was present. President Stone stated that the New York Chapter had been officially accepted by the American Fisheries Society. He also stated that the Chapter President should attend the meeting of the Northeastern Division of the American Fisheries Society in White Sulfur Springs, West Virginia in February. It was noted that a motion presented at the 29 March, 1968 meeting of the New York Chapter, which passed unanimously, stated that the Chapter would pay expenses of one officer in the event that none received Conservation Department approval to attend the meeting of the Northeastern Division. President Stone commented on the good quality of the program at the Joint Meeting of the New York Chapters of the American Fisheries Society and the Wildlife Society.
2. Adoption of the minutes of the 29 March, 1968 meeting was moved by William Bentley and passed.
3. The Treasurer's report was read by President Stone in the absence of Paul Maynard. Russell Fieldhouse, Chairman of the Auditing Committee, stated that the Treasurer's records were examined and were acceptable.
4. Report of Committees
 - a) Richard Schaefer, Chairman of the Program Committee, reported that the \$3.00 registration fee covered the cost of speakers and coffee. He stated that he felt the \$2.00 membership dues were inadequate in view of current costs. He thanked committee members for their assistance.
 - b) William Flick, Chairman of the Membership Committee, reported that attempts had been made to ferret out other workers in the field. Forty colleges and universities in the state were contacted, but the response was disappointing. Mimeographed notices were also sent to individuals, e.g. consulting biologists.

6. Unfinished business

Richard Schaefer asked if it were necessary to be a member of the American Fisheries Society to be a voting member of the New York Chapter. William Flick answered yes.

7. New business

William Flick commented on the need to send the New York Fish News to other than chapter members, e.g. Conservation Officers and Game Biologists. William Bentley stated that he approves of increasing the mailing list to include certain colleges and universities where interest prevails and Conservation Officers. He suggested better use of the Fish News insofar as passing the copy on to others in the department is concerned. Other suggestions were offered about the way in which increased mailing should be handled. A motion was presented that the possibility be explored of sending the New York Fish News to Conservation Officers and offices of the Bureau of Game. It passed, but William Bentley questioned the correctness of the New York Chapter interfering in the decision of the New York State Conservation Department. This motion was then corrected to state that the Secretary of the chapter send a letter to the Division of Fish and Game encouraging wider distribution of the New York Fish News to Conservation Officers and offices of the Bureau of Game.

William Bentley proposed that lapel pins be sold at a profit to add to the treasury.

Dan Flosila mentioned financial difficulties of the chapter and suggested a raise in dues.

8. John Gould, Chairman of the Nominating Committee, presented the following slate of officers:

President	William Flick
Vice President	Paul Neth
Secretary	Kenneth Wich
Treasurer	Clifford Creech
Director	Richard Schaefer

President Stone asked for nominations from the floor and there were none.

It was moved that nominations be closed and that the Secretary cast one ballot for the slate. The motion passed.

9. William Flick, newly elected President, said that it would be an honor to serve the members of the chapter. He asked that ideas for improving the chapter and the profession be sent to officers of the chapter.

William Pearce asked for a round of applause for the Program and Executive Committees.

10. The meeting adjourned at 6:35 PM.

Respectfully submitted,

John C. Poole, Secretary

NEW YORK CHAPTER OF THE AMERICAN FISHERIES SOCIETY
ITHACA, NEW YORK
29 MARCH, 1968

A meeting of the New York Chapter was held at Ives Hall, Cornell University on 29 March, 1968. The meeting was called to order by President Stone at 4 P.M. A quorum was present.

President Stone announced that chapter petition by the Professional Fisheries Association of New York was accepted by the American Fisheries Society. Membership in the American Fisheries Society is required to be a voting member of a chapter.

The minutes of the meeting on 8 December, 1967 were read and accepted.

Treasurer Maynard reported on the finances of the chapter to date. His report was accepted.

President Stone distributed current committee lists, and Treasurer Maynard reported that a membership list had been forwarded to the Executive Committee. Copies of the membership list are available from the treasurer.

President Stone called for committee reports.

Heraldic Committee - Martin Pfeiffer stated that the eyed egg has definitely been rejected. He and William MacGregor are developing new ideas. This prompted a discussion of the name for the chapter. President Stone called for a vote on Professional Fisheries Society of New York vs. New York Chapter of the American Fisheries Society. The majority voted in favor of New York Chapter of the American Fisheries Society.

Membership Committee - Bill Flick reported that the committee would like to seek members from the undergraduate and graduate schools at R.P.I, Plattsburgh, Syracuse University and other colleges offering fishery science. He mentioned that such students might not have enough money for American Fishery Society dues. Because of this, he suggested that the chapter offer an associate membership which would have no voting right, if such an arrangement is agreeable to the American Fisheries Society. Howard Loeb put this suggestion in the form of a motion, and it was seconded. Upon voting, it passed unanimously. Richard Schaefer offered to contact the American Fisheries Society about an associate membership in relation to the societies' rules.

Maurice Otis proposed that a prospectus for new members be prepared. The committee has already given some thought to this, and plans to proceed with such a prospectus.

Old Business - None

New Business - There was a discussion concerning sponsorship of the New York Fish News by the New York Chapter. Jerry LeTendre and Fred Tingle are now editing this. Jerry agreed to investigate sponsorship by the chapter and cost support by the Division of Fish and Game. Bill Pearce offered to find the reaction of the Conservation Department.

It was suggested that the New York Chapter membership list be used for the New York Fish News mailing list.

President Stone reminded the Executive Committee and Program Committee members that they should plan to meet with the same committees of the New York Wildlife Society to plan the joint fall meeting.

Bob Harding presented a motion that the New York Chapter pay expenses of one officer of the chapter in the event that none received Conservation Department approval to attend the Northeast Section Meeting of the American Fisheries Society. It was seconded by Paul Maynard and passed unanimously.

Ted Bell inquired about Executive Committee action in relation to a resolution opposing thermal pollution. President Stone stated that this suggestion will be brought to the attention of the Resolution Committee.

Dr. Alfred Eipper mentioned that copies of reports presented at the Fishery Biologists' Seminar, 27-29 March, 1968, will be mailed to all those who attended. He asked for suggestions of topics for future seminars.

Bill Pearce suggested a possible resolution which should be considered by the Resolutions Committee. This suggestion was concerned with the need for a liaison man to represent the New York Chapter in meetings with state legislative members to discuss fishery programs and salary needs.

Arch Petty moved that the meeting be adjourned. This was seconded and passed unanimously. President Stone adjourned the meeting at 5 P.M.

Respectfully submitted,
John C. Poole, Secretary

6:00 - 7:00 Social hour

7:00 - Banquet

Tentative banquet speaker : Ed Zern

Saturday, December 7

9:00 -12:30 Joint technical session - presentations to be made by State or University people (including graduate students). Perhaps 3 game and 3 fishery papers.

- 1) 9:00- 9:25 Paper no. 1
9:25- 9:30 questions from the floor
- 2) 9:30- 9:55 Paper no. 2
9:55-10:00 questions from the floor
- 3) 10:00-10:25 Paper no. 3
10:25-10:30 questions from the floor

10:30-11:00 Break

- 4) 11:00-11:25 Paper no. 4
11:25-11:30 questions from the floor
- 5) 11:30-11:55 Paper no. 5
11:55-12:00 questions from the floor
- 6) 12:00-12:25 Paper no. 6
12:25-12:30 questions from the floor

12:30 -12:45 Final remarks from Chapter presidents and adjournment.

PROFESSIONAL FISHERIES ASSOCIATION OF NEW YORK

SUBJECT: Local Chapter of the American Fisheries Society
For your information

At the 95th American Fisheries Society annual meeting in Portland, Oregon the Constitution of the American Fisheries Society By-Laws were modified by adding Section 24 as follows:

(a) A local chapter of the Society may be established by the favorable action of the Society upon a petition presented to it at any regular meeting by not less than 10 members in good standing in a particular geographic region within an established Division.

(b) A local chapter upon receiving approval to be established shall enjoy all the rights, privileges, advantages and responsibilities granted to regional divisions as set forth in Article VI, Paragraphs 1 to 7 inclusive.

A local chapter of the American Fisheries Society can be an organization by local fishery workers with the objective of becoming better acquainted with each other's problems, projects and accomplishments. It can serve as a lifeline from the local level to the Divisional and National level. This would help the parent society to be informed of the desires and thinking of those unable to attend Divisional or National meetings, as well as increase the membership and ultimately the strength of the Society.

Suggested by-laws concerning a local chapter are enclosed as is a questionnaire concerning your interest in a local chapter. Kindly return the questionnaire to Secretary Edward Holmes.

SUGGESTED BY-LAWS FOR A CHAPTER, AMERICAN FISHERIES SOCIETY

Section 1 - Name and Objectives

The name of this organization shall be the (NAME)
Chapter of the American Fisheries Society, and herein after referred to
as the Chapter.

The objectives of the Chapter shall be those of the American Fisheries
Society as set forth in Article I of the constitution, and to encourage the
exchange of information by members of the Society residing with the
(AREA)

Section 2 - Membership

The membership of the Chapter shall be composed of those American
Fisheries Society members in good standing residing in the (AREA).

Section 3 - Meetings

The Chapter shall hold at least one meeting annually at a time and
place designated by the Executive Committee. The program and presentation
of papers shall be the responsibility of the Program Committee.

Section 4 - Officers

The officers of the Chapter shall consist of a President, Vice Presi-
dent, and a Secretary-Treasurer.

Officers shall be elected at the annual meeting. The Secretary-
Treasurer may hold office for a period longer than one year, but the term
of the other officers shall be one year. In case of a vacated position,
the Executive Committee shall appoint a qualified replacement to fill
an unexpired term.

In the event of a cancellation of an annual meeting the officers and
the members of any committees shall continue to serve until the next
scheduled meeting.

Section 5 - Duties of Officers

The President of the Chapter shall preside at all meetings, shall
serve as the Chairman of Executive Committee, shall represent the
Chapter to the (NAME) Division and to the American
Fisheries Society, and shall make such appointments and perform other
duties and functions as are authorized and necessary.

The Vice President shall be Chairman of the Program Committee and
shall assume the duties of the President in the event of his inability
to act.

(OVER)

NEW YORK CHAPTER OF THE AMERICAN FISHERIES SOCIETY
ITHACA, NEW YORK
29 MARCH, 1968

A meeting of the New York Chapter was held at Ives Hall, Cornell University on 29 March, 1968. The meeting was called to order by President Stone at 4 P.M. A quorum was present.

President Stone announced that chapter petition by the Professional Fisheries Association of New York was accepted by the American Fisheries Society. Membership in the American Fisheries Society is required to be a voting member of a chapter.

The minutes of the meeting on 8 December, 1967 were read and accepted.

Treasurer Maynard reported on the finances of the chapter to date. His report was accepted.

President Stone distributed current committee lists, and Treasurer Maynard reported that a membership list had been forwarded to the Executive Committee. Copies of the membership list are available from the treasurer.

President Stone called for committee reports.

Heraldic Committee - Martin Pfeiffer stated that the eyed egg has definitely been rejected. He and William MacGregor are developing new ideas. This prompted a discussion of the name for the chapter. President Stone called for a vote on Professional Fisheries Society of New York vs. New York Chapter of the American Fisheries Society. The majority voted in favor of New York Chapter of the American Fisheries Society.

Membership Committee - Bill Flick reported that the committee would like to seek members from the undergraduate and graduate schools at R.P.I, Plattsburgh, Syracuse University and other colleges offering fishery science. He mentioned that such students might not have enough money for American Fishery Society dues. Because of this, he suggested that the chapter offer an associate membership which would have no voting right, if such an arrangement is agreeable to the American Fisheries Society. Howard Loeb put this suggestion in the form of a motion, and it was seconded. Upon voting, it passed unanimously. Richard Schaefer offered to contact the American Fisheries Society about an associate membership in relation to the societies' rules.

Maurice Otis proposed that a prospectus for new members be prepared. The committee has already given some thought to this, and plans to proceed with such a prospectus.

Old Business - None

New Business - There was a discussion concerning sponsorship of the New York Fish News by the New York Chapter. Jerry LeTendre and Fred Tingle are now editing this. Jerry agreed to investigate sponsorship by the chapter and cost support by the Division of Fish and Game. Bill Pearce offered to find the reaction of the Conservation Department.

It was suggested that the New York Chapter membership list be used for the New York Fish News mailing list.

President Stone reminded the Executive Committee and Program Committee members that they should plan to meet with the same committees of the New York Wildlife Society to plan the joint fall meeting.

Bob Harding presented a motion that the New York Chapter pay expenses of one officer of the chapter in the event that none received Conservation Department approval to attend the Northeast Section Meeting of the American Fisheries Society. It was seconded by Paul Maynard and passed unanimously.

Ted Bell inquired about Executive Committee action in relation to a resolution opposing thermal pollution. President Stone stated that this suggestion will be brought to the attention of the Resolution Committee.

Dr. Alfred Eipper mentioned that copies of reports presented at the Fishery Biologists' Seminar, 27-29 March, 1968, will be mailed to all those who attended. He asked for suggestions of topics for future seminars.

From the above heading, I am sure that you already guessed that the New York petition for Chapter affiliation was approved. In actual fact, it was approved by the AFS Executive Committee in Houston, Texas, on March 12.

I trust that I will be able to present you with your charter certificate in the near future. It will be necessary for me to have the appropriate printing completed and the proper signatures affixed before I can send it to you. In the meantime, if I can be of help, I would be pleased to hear from you.

Sincerely yours,

<u>Maurice S. Otis</u>	<u>Stingerlands, New York.</u>
<u>William E. Bentley</u>	<u>RD#2 Voorheesville, N.Y.</u>
<u>Udell B. Stone</u>	<u>303 Troy Rd., Rochester, N.Y.</u>

Dated : January 19, 1968

PROFESSIONAL FISHERIES ASSOCIATION OF NEW YORK

SUBJECT: Local Chapter of the American Fisheries Society
For your information

At the 95th American Fisheries Society annual meeting in Portland, Oregon the Constitution of the American Fisheries Society By-Laws were modified by adding Section 24 as follows:

(a) A local chapter of the Society may be established by the favorable action of the Society upon a petition presented to it at any regular meeting by not less than 10 members in good standing in a particular geographic region within an established Division.

(b) A local chapter upon receiving approval to be established shall enjoy all the rights, privileges, advantages and responsibilities granted to regional divisions as set forth in Article VI, Paragraphs 1 to 7 inclusive.

A local chapter of the American Fisheries Society can be an organization by local fishery workers with the objective of becoming better acquainted with each other's problems, projects and accomplishments. It can serve as a lifeline from the local level to the Divisional and National level. This would help the parent society to be informed of the desires and thinking of those unable to attend Divisional or National meetings, as well as increase the membership and ultimately the strength of the Society.

Suggested by-laws concerning a local chapter are enclosed as is a questionnaire concerning your interest in a local chapter. Kindly return the questionnaire to Secretary Edward Holmes.

SUGGESTED BY-LAWS FOR A CHAPTER, AMERICAN FISHERIES SOCIETY

Section 1 - Name and Objectives

The name of this organization shall be the _____ (NAME) Chapter of the American Fisheries Society, and herein after referred to as the Chapter.

The objectives of the Chapter shall be those of the American Fisheries Society as set forth in Article I of the constitution, and to encourage the exchange of information by members of the Society residing with the _____ (AREA)

Section 2 - Membership

The membership of the Chapter shall be composed of those American Fisheries Society members in good standing residing in the _____ (AREA)

Section 3 - Meetings

The Chapter shall hold at least one meeting annually at a time and place designated by the Executive Committee. The program and presentation of papers shall be the responsibility of the Program Committee.

Section 4 - Officers

The officers of the Chapter shall consist of a President, Vice President, and a Secretary-Treasurer.

Officers shall be elected at the annual meeting. The Secretary-Treasurer may hold office for a period longer than one year, but the term of the other officers shall be one year. In case of a vacated position, the Executive Committee shall appoint a qualified replacement to fill an unexpired term.

In the event of a cancellation of an annual meeting the officers and the members of any committees shall continue to serve until the next scheduled meeting.

Section 5 - Duties of Officers

The President of the Chapter shall preside at all meetings, shall serve as the Chairman of Executive Committee, shall represent the Chapter to the _____ (NAME) Division and to the American Fisheries Society, and shall make such appointments and perform other duties and functions as are authorized and necessary.

The Vice President shall be Chairman of the Program Committee and shall assume the duties of the President in the event of his inability to act.

(OVER)

April 2, 1968

Dr. Robert F. Hutton
Executive Secretary
American Fisheries Society
Suite 1040, Washington Building
15th and New York Avenue, N.W.
Washington, D.C. 20005

Dear Bob:

We were very pleased to hear of the approval by
the AFS Executive Committee of a New York State Chapter.

At a recent Cornell Seminar for New York fisheries
biologists we held a short meeting of our Society and I was happy
to be able to tell the group that we were now a Chapter of AFS.

With kindest regards,

Sincerely yours,

Uell B. Stone
President, New York State Chapter

UBS ed

1/31/68

John:

I didn't have room for a P.S. on the letter.
Approximately 1/3 of the unpaid members are in your
area. Would you please get together with Dick
Schaefer and collect '68 dues from all those that
are convenient to you. This will save me making
out quite a number of statements.

Bob

PROFESSIONAL FISHERIES ASSOCIATION
OF
NEW YORK

Membership List

Final Roster - 1967

- ✓ ANNIS, Erwin M., State Fish Hatchery, Warrensburg, New York 12885
- BACKMAN, Ronald, 90-B Fairmont Avenue, Kingston, New York 12401
- ✓ BENTLEY, William G., R. D. #2, Voorheesville, New York 12186
- ✓ BLAKE, Leigh M., Old Route 22, Pawling, New York 12564
- BRAND, Arthur R., III, 100 Hollywood Drive, Oakdale, New York 11769
- ✓ BREWER, Robert C., Friends Lake Road, Chateaufort, New York 12817
- ✓ BRIGGS, Philip T., N. Y. S. Cons. Dept., Oakdale, New York 11769
- BRONLEY, Albert W., Div. of Cons. Education, Albany, New York 12226
- ✓ BUNDICK, George E., 68 Ontario Street, Cohoes, New York 12047

Albany, New York

Dear Ken:

Inclosed you will find the following items, along with comments regarding these items:

1. ✓ Letter from Louis G. Olney, along with a carbon of a letter I wrote him. Would you kindly send Mr. Olney an application form for the N. Y. S. Chapter.
2. Check from John Grim for membership in the New York State Chapter. Would you kindly send him a membership card.
3. Letter from Ronald Engel regarding the New York State Chapter. Possibly if you sent him a membership card, along with a copy of last years program, you might get some action.
4. Copy of letter from SUNY at Potsdam. No reply necessary.

Sincerely yours,

Bill

William A. Flick
Research Associate

1976

February - First meeting of the New York Chapter as a single unit and oriented toward aquatic related subjects. President - Bob Werner. Membership - 97.

Many thanks are due to past President, Bill Pearce, and the Program Committee in setting up the meeting at Bergamo and coming up with a program that drew 82 members vs. 24 in 1975. Papers were given by Chapter members on their various programs.

1977

Second meeting of the New York Chapter at Bergamo with papers by members on various aquatic projects. President - C. Lavett Smith. Membership - 109.

There was good attendance at the meeting with much interest and enthusiasm in the Chapter. Along with the regular aquatic related papers there was an excellent session on aquaculture. Secretary-Treasurer Joe Gorsuch did the Chapter a big favor in obtaining bulk mailing rates and addressograph plates for membership mailing.

1978

Third meeting of the New York Chapter to be held at Bergamo with papers by various Chapter members. President - Bruce Shupp. Membership - 258.

Program Chairman Dave Green indicates there were over 30 papers submitted for the 1978 program. The size of the current membership indicates the present interest in the Chapter.

One of the valuable contributions this year has been the membership directory. This has already been an aid to many of us.

It is interesting to note the present makeup of the membership as compared to 1966. The wide diversity in membership makes for a much stronger organization. Numbers and percent of the total membership from various groups are shown below:

	1966	1978
N.Y.S. DEC	38 (83%)	75 (31%)
Cornell	8 (17%)	16 (6%)
Other Research or Teaching	0	73 (29%)
Environmental Consulting	0	27 (11%)
Industry	0	27 (11%)
Sportsmen Retired, etc.	0	17 (7%)
Student	0	14 (6%)

October - Business meeting of PFANY in conjunction with the N.Y. Conservation Dept. Bureau Fish Meeting.

1967 March - Fishery COOP Workshop at Cornell - Subject "Review of Methods of Fish Population Estimation". Good attendance, nearly all PFANY members.

December - Joint meeting of PFANY with Wildlife Chapter. Theme "Professionalism". President - Robert Zilliox - Membership - 103. (It is interesting to note we had a joint meeting when a year earlier we decided it was a poor idea.)

1968 March - Fishery COOP Workshop at Cornell - Subject "Some Questions on Economic Analysis and Its Role in Making Water Use Decisions Involving Fisheries." Unfortunately this was the last of the Fishery COOP Workshop.

December - Joint meeting with Wildlife Chapter in Syracuse - Theme - "Communication". President - U. B. Stone. Membership - 110.

Dick Schaefer stated that \$2.00 dues were inadequate to maintain organization.

American Fishery Society accepted PFANY as the New York Chapter American Fishery Society.

1969 December - Meeting of the New York Chapter American Fisheries Society with the Wildlife Chapter - Theme - "The Demands on Our Fish and Wildlife Resources". President - Bill Flick. Membership - 81.

The initial plans for the film "The Aquatic Ecologist" evolved under the Professional Standards Chairmanship of Steve Simkins.

1970 December - Fourth joint meeting with the Wildlife Chapter - Theme - "The Use of Computers in Fisheries and Wildlife Research, Management and Husbandry". President - Paul Neth. Membership - 114.

Howard Loeb was Program Chairman for the Fishery Chapter and it was a better than average joint meeting. Work on the film "The Aquatic Ecologist" made real strides. Committee - Chairmen - Steve Simkins, Bill Flick, Dwight Webster, Al Jensen.

1971 December - Fifth joint meeting with the Wildlife Chapter - theme - "The Role of Fish and Wildlife Managers in N.Y.'s Conservation Programs". President - Robert Griffith. Membership - 76.

Work still progressing on film. A major item at the meeting was the problem of "Affiliate" membership category.

March - Joint meeting of the N.Y. Fishery Chapter with the Wildlife Chapter, Soil Conservation Service, and the Society of American Foresters at Grossingers. Theme - "Politics and the Environment".

SOME NOTES ON THE HISTORY OF THE NEW YORK CHAPTER
AMERICAN FISHERY SOCIETY

(Formerly Professional Fisheries Association of New York)

Prepared by: William A. Flick
Cornell University

The following material has been dug out of various old boxes, torn folders, the backs of envelopes, and parts from foggy memory (or perhaps imagination). New material may eventually appear as members retire and clean out their desks. Until then I hope this chronology* will be an aid in plotting a course for further growth and achievements of the Chapter. We have done well but with the present large, diversified, and young membership we can and should do even better.

1965 - March - Fishery COOP Workshop at Cornell - Subject "Age and Growth of Fish." On March 10, 1965 at this meeting John Gould suggested creation of the N.Y. Association of Fishery Biologists.

October - Rome, N.Y. meeting of N.Y. Conservation Department Bureau of Fish - Organizational meeting of Professional Fisheries Association of New York - (Initially N.Y. Association of Fishery Biologists.)

Some of the original people involved are listed below. Additional names should be added as they are uncovered.

John Gould - Chairman (NYCD)

Erwin Alperin (NYCD)	Robert Griffith (NYCD)	Martin Pfeiffer (NYCD)
William Bentley (NYCD)	Robert Harding (NYCD)	Henry Regier (Cornell)
Robert Brewer (NYCD)	Bill Kelly (NYCD)	U. B. Stone (NYCD)
Howard Dean (NYCD)	Jim Lindsey (NYCD)	Earl Styles (NYCD)
Eli Dietsch (NYCD)	Howard Loeb (NYCD)	Dwight Webster (Cornell)
Neil Ehlinger (NYCD)	Paul Neth (NYCD)	Ken Wich (NYCD)
Al Eipper (Cornell)	William Pearce (NYCD)	Robert Zilliox (NYCD)
Bill Flick (Cornell)		

1966 - March - First meeting of the "Professional Fisheries Association of N.Y. (PFANY) - Met in conjunction with the Fishery COOP Workshop at Cornell - Subject "Statistics". President - John Gould - Membership - 68.

At the meeting the members present agreed nearly unanimously that the advantages inherent in our fisheries group - i.e., the unique opportunities for really productive, searching discussion of fisheries research and management topics of mutual interest by all fisheries workers of the State - would be greatly reduced by changing over to a "joint meeting" arrangement with Wildlife Chapter. (Taken from the records of 1966.)

Attendance N.Y. Cons. Dept. Cornell

38

8

* Note: The author will not be held responsible for the accuracy of the material herein.

1972 January - Joint meeting with Wildlife Chapter - "How Does Fish and Wildlife Fit into the New N.Y. Dept. of Environmental Conservation." President - Howard Loeb. Membership - 91.

First Chapter News Letter - Ned Holmes Editor. Last year of N.Y. Fish News (Dept. publication). Work still progressing on film "The Aquatic Ecologist".

1973 February - Seventh annual joint meeting with the Wildlife Chapter - Theme - "Fish and Wildlife Values, Conflict or Concord". President - Martin Pfeiffer. Membership - 97.

For the first time $\frac{1}{2}$ day was devoted to separate sessions. Fisheries subject was "Fish Management Today - Where Do We Go from Here". Film "The Aquatic Ecologist" nearing completion.

1974 January - Eighth annual joint meeting with the Wildlife Chapter - Theme - "Fish & Wildlife in Regional Planning: The Adirondacks and Beyond". President - Bill Pearce. Membership - 74.

Separate Fisheries Session Saturday morning "Role of Forage Fish in Salmonid Management". This was an excellent session with speakers such as N. V. Martin from Ontario. A real bright spot compared to most joint sessions.

Film - "The Aquatic Ecologist" was finally completed. Dave Haselman and Bernie Holtman who produced the film did an excellent job and covered over 10,000 miles gathering material. The College of Forestry at Syracuse contributed the services of Dave and Bernie and the N.Y. Chapter begged, borrowed and pleaded (plus sold some film) to come up with the \$11,500 needed by the end of 1974. Steve Simkins was Committee Chairman through to the end with Dwight Webster and Bill Flick committee members attending all meetings for 6 years. Bob Werner was the super salesman that handled film distribution following completion and collected sale money to get us out of debt.

1975 February - Ninth (and last) joint meeting with the Wildlife Chapter. Also involved in this meeting were The Soil Conservation Service, and the N.Y. Upstate Chapter of the American Institute of Planners. Theme - "Environmental Aspects in Land Use - Preservation vs. Development". President - Bill Pearce. Membership - 84.

There was very little interest in this meeting (no separate session for fisheries) and total attendance was 24 with 28 needed for a quorum. Officers from the previous year were asked to continue serving.

Film - "The Aquatic Ecologist" received an award for reaching the finals in the American Film Festival. It was also accepted for entry in the "Cine Film Festival". It was selected by the United States Information Agency for use in their Science Reports. A short made from the film was made into 22 languages and sent to 84 countries.

American Fisheries Society - New York Chapter

Annual Meeting - December 6, 1968

1. Call to Order - President's remarks
 - a. Introduction of Guests
 - b. Membership Count (Quorum is 15 members)

PROFESSIONAL FISHERIES ASSOCIATION OF NEW YORK

SUBJECT: Local Chapter of the American Fisheries Society
For your information

At the 95th American Fisheries Society annual meeting in Portland, Oregon the Constitution of the American Fisheries Society By-Laws were modified by adding Section 24 as follows:

(a) A local chapter of the Society may be established by the favorable action of the Society upon a petition presented to it at any regular meeting by not less than 10 members in good standing in a particular geographic region within an established Division.

(b) A local chapter upon receiving approval to be established shall enjoy all the rights, privileges, advantages and responsibilities granted to regional divisions as set forth in Article VI, Paragraphs 1 to 7 inclusive.

A local chapter of the American Fisheries Society can be an organization by local fishery workers with the objective of becoming better acquainted with each other's problems, projects and accomplishments. It can serve as a lifeline from the local level to the Divisional and National level. This would help the parent society to be informed of the desires and thinking of those unable to attend Divisional or National meetings, as well as increase the membership and ultimately the strength of the Society.

Suggested by-laws concerning a local chapter are enclosed as is a questionnaire concerning your interest in a local chapter. Kindly return the questionnaire to Secretary Edward Holmes.

CONSERVATION DEPARTMENT
RECEIVED
JUN 7 - 1967
REGION 4
FISHERIES OFFICE

SUGGESTED BY-LAWS FOR A CHAPTER, AMERICAN FISHERIES SOCIETY

Section 1 - Name and Objectives

The name of this organization shall be the _____ (NAME) Chapter of the American Fisheries Society, and herein after referred to as the Chapter.

The objectives of the Chapter shall be those of the American Fisheries Society as set forth in Article I of the constitution, and to encourage the exchange of information by members of the Society residing with the _____ (AREA).

Section 2 - Membership

The membership of the Chapter shall be composed of those American Fisheries Society members in good standing residing in the _____ (AREA).

Section 3 - Meetings

The Chapter shall hold at least one meeting annually at a time and place designated by the Executive Committee. The program and presentation of papers shall be the responsibility of the Program Committee.

Section 4 - Officers

The officers of the Chapter shall consist of a President, Vice President, and a Secretary-Treasurer.

Officers shall be elected at the annual meeting. The Secretary-Treasurer may hold office for a period longer than one year, but the term of the other officers shall be one year. In case of a vacated position, the Executive Committee shall appoint a qualified replacement to fill an unexpired term.

In the event of a cancellation of an annual meeting the officers and the members of any committees shall continue to serve until the next scheduled meeting.

Section 5 - Duties of Officers

The President of the Chapter shall preside at all meetings, shall serve as the Chairman of Executive Committee, shall represent the Chapter to the _____ (NAME) Division and to the American Fisheries Society, and shall make such appointments and perform other duties and functions as are authorized and necessary.

The Vice President shall be Chairman of the Program Committee and shall assume the duties of the President in the event of his inability to act.

PROFESSIONAL FISHERIES ASSOCIATION OF NEW YORK

SUBJECT: Questionnaire concerning your Interest in a Local Chapter
of the American Fisheries Society

Kindly return questionnaire to: Mr. Edward Holmes, Secretary,
Professional Fisheries Association of New York, 2130 Scottsville Road,
Scottsville, New York 14546.

1) Are you interested in reorienting the Professional Fisheries
Association of New York to a New York Chapter of the American
Fisheries Society?

Yes No Remarks

2) Would you participate in activities of the local chapter and be
willing to serve as an officer or committee member?

Yes No Remarks

3) What type of program should the annual meeting of the local Chapter
sponsor?

4) Should there be more than a single meeting in any one year?

Yes No If yes, how many?

PROFESSIONAL FISHERIES ASSOCIATION OF NEW YORK

RESOLUTION NO. 67-2 NEW YORK CHAPTER, AMERICAN FISHERIES SOCIETY

WHEREAS the American Fisheries Society was organized in 1870 and incorporated in 1910; and

WHEREAS from 1870 to the present time the American Fisheries Society has had excellent leadership, growth, development and respect; presently occupying a position of high esteem as the professional society representing fishery workers; and

WHEREAS experience has shown that for all long established professional vocations, professional status and respect is enhanced by local professional societies being affiliated with national or international societies; and

WHEREAS many members of the Professional Fisheries Association of New York are members of the American Fisheries Society; and

WHEREAS a local Chapter of the American Fisheries Society provides a direct communication link with the Parent Society, increases the membership and strength of the Parent Society while also improving the image, status and voice of the local chapter, now therefore be it

RESOLVED that the Professional Fisheries Association of New York petition the American Fisheries Society at their 1968 annual meeting to become the New York Chapter of the American Fisheries Society and that the Executive Committee of the Professional Fisheries Society of New York prepare this transition for occurrence at the 1968 annual meeting of the Professional Fisheries Association of New York.

Dear John:

Several months ago I sent you a \$2.00 check for dues of the Northeast Fisheries Society. The bank has not returned the check and I haven't heard from you.

Would you please acknowledge receipt of the check and let me know if I have been accepted for membership.

Sincerely yours,

Walt

American Fishery Society
Paul Smiths, New York

Dear Bill:

Thank you for your letter inviting our faculty to become members of the New York State Chapter of the American Fishery Society. I have circulated your letter among our biology faculty, and must report that I have found no one who is interested in membership at this time. Actually, these faculty members are so heavily committed with activities that I can understand their reluctance to add something new just now.

Again, let me tell you that we do appreciate your invitation, and perhaps some of our biologists will wish to join at a later time.

Sincerely yours,

A handwritten signature in cursive script that reads "Bill H".

Dear John:

The following men are new PFANY members for 1968. They do not have a copy of our by-laws and probably have not had an opportunity to complete a Biographical Sketch:

- Bell, W. T., Jr., Dept. of Conservation, Cornell, Ithaca, NY 14850
- Benoit, Paul, R.F.D. #3, Ballston Spa, N. Y. 12020
- Bonavist, Anthony, 31 Pine St., Ossining, N. Y. 10562
- Green, Dave, Conservation Dept., Cornell, Ithaca, NY ~~14850~~ 14867
- Hyde, Richard, Regional Supvr., Cons. Dept., Cortland, NY 13045
- Jackson, Bonnie, R.D. #4, Maryland, N. Y. 12116
- Lake, Herb, State Fish Hatchery, R. D., Ogdensburg, NY 13669
- Loeb, Howard, Fish Research, Livingston Manor, NY 12758
- Moronn, Mason, Box 259, Black River, NY 13612
- Morehouse, Burton, Box 591, Bolton Landing, NY 12814
- Smith, Dennis, Conservation Dept., Scottsville, NY 14546 ←
- Spaziani, Gerry, 127 Boone St., Watertown, NY 13601
- Stafford, Ken, Fish Research, Livingston Manor, NY 12758
- Trevor, Frank W., Millbrook School for Boys, Millbrook, NY 12545
- Veno, Tony, 220½ West Forest St., Olean, NY 14760
- Wakefield, Carleton, Conservation Dept., Casterland, NY 13620
- Wedge, Leslie, Conservation Dept., 11 Greenbush St., Cortland, NY 13045

*Charles D. Smith
 2130 Scottsville Road
 Scottsville, N.Y. 14546*

When these men complete a Biographical Sketch, please check these names & addresses for accuracy. If there are any corrections, I would appreciate being notified so I can make a correct 1968 roster around March 15th.

Attached is a list of the 1967 Roster. All names with a checkmark have paid their 1968 dues. They require a new membership card as do the above listed men.

Do you require any money for secretarial supplies? If so, let me know the invoice costs and I will make out any necessary checks.

Very truly yours,

Bob

Dear Paul:

I am writing in reply to your letter of 31 January.
A copy of the constitution and by-laws, a biographical
sketch form and a membership card have been mailed to
each of the new members. All members on your 1967 roster
who have paid their 1968 dues have been mailed member-
ship cards also.

Dues have been collected from many local people,
and I will mail you checks to cover this in the next
day or so.

To date, I have purchased 56 six-cent stamps and
17 twelve-cent stamps totalling \$5.40. If you have the
money, I will appreciate receiving this amount.

If any changes in names or addresses come up in the
returned biographical sketches, I will let you know by
15 March.

Dear Stoney:

Thank you very much for your letter of September 26, 1968. I had already heard about the death of Bob Zilliox from Mason Lawrence while attending our Tucson Meeting. It certainly was bad news. If you have any pertinent information about Bob's career, I would like to place a note about Bob's passing in the next NEWSLETTER.

Thank you very much for the invitation to attend the New York State Chapter meeting of the American Fisheries Society. My schedule is pretty tight, but I will try to attend.

With all best wishes.

Sincerely yours,

Robert F. Hutton
Executive Secretary

Dear Bob:

Possibly you have already heard that our good friend Robert Zilliox died suddenly on September 11, 1968 but, in any event, I thought that I should let you know. We shall all miss Bob greatly.

I would like to take this opportunity to extend an invitation to you to attend the annual meetings of the New York State Chapter, American Fisheries Society, which will again be a joint session with the Wildlife Society. The meetings will be held December 6 and 7, 1968, near Syracuse. I will send you the details later.

With best regards,

Sincerely yours,

Udell B. Stone
President
New York State Chapter

2.

February 22, 1968

Herbert Doig
New York State Conservation Department
Division of Fish and Game
Albany, New York 12226

Dear Herb,

Jim Lindsey, Dirck Benson and I held a conference call to prepare the recommendation for action by Executive Committee of the New York Chapter of the Wildlife Society on Bill S1825 - A2556.

We find this bill is substantially improved from that submitted some two years ago. These improvements include deletion of the underlined words: public or private forest lands; and the yields thereof (Pg. 2, line 27) "and properly manage forest land resources" (Pg. 3, line 2). A major addition in accord with our previous chapter resolution was the insertion of "fish biologist or wildlife biologist" as exemptions (Pg. 13, line 7). We were pleased to see these changes.

Our unanimous agreement was that the definition of professional forestry is still too inclusive. In this day of multiple use of wild lands many people have skills useful in managing land and vegetation occupied by "plant associations predominately of forest trees" (Pg. 2, line 19). It is our feeling that foresters should be most skilled in the management of forest lands for the production of wood products.

*How about
managing
the area
with*

It therefore, was our unanimous recommendation that the Executive Committee oppose the bill as it is presently worded.

It was, however, agreed that the insertion on page 3, line 2, of the words "for the production of wood products." (to make it read "...manage forest lands for the production of wood products.") together with the previous alterations make this bill satisfactory from the standpoint of wildlife workers.

We therefore recommend the Executive Committee support inclusion of the phrase "for the production of wood products." following the words "manage forest land" and support any bill having this more restrictive phraseology.

If there are further questions pertaining to this act Dirck can respond in light of our thinking or, I am sure you can feel free to call on either Jim or I for additional comments.

Sincerely yours,

BTW
Bruce T. Wilkins
Assistant Professor
of Conservation

Rochester, New York 14618

Dear Mr. Stone;

The Northeastern Division of the American Fisheries Society is going to distribute a Newsletter this year to all of its members. The Newsletter will contain information regarding programs and personnel in the various states and provinces which should be of interest to everyone. The North Central Division has had such a service for several years.

I would also like to include a summary of the meetings and activities of local chapters of the AFS. I would appreciate, therefore, your having someone prepare and send to me a report on your organization for 1968. Minutes of meetings, offices, a membership list, etc., would be what I'd like. I would like to have the report in my hands by September 15th. Please advise me at your earliest convenience the name of the reporter.

I shall look forward to hearing from you in the near future.

Sincerely,

Roger Schoumacher
Sec.-Treasurer N. E. Division

NORTHEAST FISH and WILDLIFE CONFERENCE
FEBRUARY 9 - 12, 1969

P. E. ZURBUCH
GENERAL PROGRAM CHAIRMAN

Dear Member or Affiliate
Northeast Fish and Wildlife Society

We wish to again call your attention to the 1969 Northeast Fish and Wildlife Conference which will be held at the magnificent GREENBRIER HOTEL, White Sulphur Springs, West Virginia.

This letter will serve as the first call for papers to be presented at The Conference. For your information and scheduling, the following deadlines have been established:

October 1, 1968 - Titles
November 1, 1968 - Rough Abstract
December 15, 1968 - Polished Abstract
January 15, 1969 - Final Copy

Additional information regarding the conditions for presentation of papers and use of audio-visual aids will be made available by the various Program Chairmen. A list of the 1969 Program Chairmen is attached for your convenience.

Very truly yours,

Peter E. Zurbuch
General Program Chairman

Attachment

P.S. Your Mountain State Hosts wish to remind you that February is the month of Valentines. Many interesting activities are being planned that will make "The Greenbrier Conference" a most memorable Valentine Day experience!

FOREST GAME SESSION

TUESDAY MORNING - JANUARY 16

Chairman - Donald F. Behrend
 Game Division
 University of Maine
 Orono, Maine

Discussion Leader - Samuel P. Shaw, Forester
 Resource Development - Branch of Special Programs
 Division of Cooperative Forest Management
 U. S. Forest Service
 Upper Darby, Pennsylvania

9:00 - 12:00

- 1) A Method of Forest Inventory and Its Application to Habitat Management Planning
 E. W. Sears
 Bureau of State Forests
 Conservation Department
 Albany, New York
 John J. Whalen
 Bureau of Game
 Conservation Department
 Stamford, New York
- 2) Forest Habitat Manipulation with Modern Herbicides
 William P. MacConnell
 Department of Forestry and Wildlife Management
 University of Massachusetts
 Amherst, Massachusetts
- 3) Sufficient Deer Browse Produced by a Wide Range of Cutting Practices
 Jack I. Cromer
 Department of Natural Resources
 French Creek, West Virginia

10:30 - 10:40

Coffee Break

- 4) Forage Preference Determination Through Use of Tame Deer
 William M. Healy
 Pennsylvania Cooperative Wildlife Research Unit
 The Pennsylvania State University
 University Park, Pennsylvania

3) The Gannets of Bonaventure Island

J. M. Poulin and
G. Moisan
Laval University
Quebec City, Quebec
Canada

4) Estimating Duck Production Using Marked-Unmarked Ratios of Nightlighted Ducklings

George W. Gavutis, Jr.
Assistant Refuge Manager
Iroquois National Wildlife Refuge
Basom, New York

10:30 - 10:40

Coffee Break

5) A Nightlighting Technique for Censusing and Banding Wood Ducks on Rivers and Smaller Streams

Joe Rieffenberger and
Bob Kletzly
Department of Natural Resources
Davis, West Virginia

6) Ecological Significance of the Mute Swan in Rhode Island

Charles H. Willey
Department of Natural Resources
Providence, Rhode Island

7) Waterfowl Utilization of Beaver Impoundments in Southeastern New Hampshire

Harold P. Nevers
Department of Forest Resources
University of New Hampshire
Durham, New Hampshire

8) Influence of Diet in Lead Poisoning in Waterfowl

(To be read by title only)

MEMORANDUM

TO: Executive Committee, Northeastern Division

FROM: David W. Robinson, President *DWR*

DATE: October 14, 1968

SUBJECT: Divisional Representative to Parent Society Vacancy

As you may already know, Ed Cooper was elected 2nd Vice-President to the Society and had to vacate his responsibility as the Division Representative to the Parent Society. A replacement must be named for Ed in the very near future. This replacement must have the approval of the Northeastern Division Executive Committee. It is my intention to appoint Robert Jones of Connecticut to serve in this capacity. Bob is presently Chairman of the Nominating Committee of the Northeastern Division, and this assignment would certainly dovetail well with his responsibilities as divisional representative to the AFS Nominating Committee.

If I do not hear from you by October 22, I will assume that you approve of this appointment, and I will advise Bob Jones and the Executive Committee accordingly.

November 21, 1968

Mr. John Gould
Regional Supervisor
N.Y.S. Conservation Dept.
Stamford, New York 12167

Dear John:

Under separate cover I am sending you the biographical sketches of members of the New York Chapter, American Fisheries Society which may be helpful to you in selecting a new slate of officers. I just uncovered these from Ned Holmes.

It seems to me that to wait until the day of the meeting, December 6th, is cutting it pretty thin but I will leave this up to you. Preferably, your committee should meet, select a slate, and call each candidate to see if he would accept.

In order to refresh Dr. Webster's memory of past officers, I am listing below what I can find from available information:

1968 - U. B. Stone, Pres., Will Flick, Vice Pres., John Poole, Sec., Paul R. Maynard, Treasurer, William Pearce, Director.

1967 - Robert Zilliox, Pres., Richard Schaefer, Vice Pres., Ned Holmes, Sec., Paul R. Maynard, Treasurer, Robert Griffiths, Director.

1966 - John Gould, Pres., William Youngs, Sec.

Sincerely yours,

Udell B. Stone
President, New York Chapter
American Fisheries Society

Mr. John Gould
Regional Supervisor
N.Y.S. Conservation Department
Stamford, New York 12167

Dear Mr. Gould:

Unfortunately Maury Otis and I didn't get together because of the multiple postponements of the proposed trip to see the cohoes in Michigan. I am finding it a little difficult to propose names more or less at random inasmuch as I am not too aware of the people who have served in the immediate past. Would it be practical for the nominating committee to get together in advance of the business meeting at Syracuse? We could, for example, have a breakfast meeting December 6.

Right now, I am not certain whether I will be able to leave Thursday inasmuch as there is a dedication of one of the new buildings here on that evening. However, if you decide to have the breakfast meeting, I can readily make an 8:00 a.m. meeting by leaving Ithaca early Friday morning.

Sincerely yours,

Dwight A. Webster
Head of Department

MEETING ANNOUNCEMENT

Dear Member or Invited Guest:

A short while ago you received a prospectus about this year's joint annual meeting of the State Chapters of the American Fisheries and Wildlife Societies. This "follow-up" announcement is merely to remind you of the time and place, and to provide you with final cost, reservation and program information.

Time: December 5 - 7, 1968

Place: Holiday Inn, Thruway Exit #36, Syracuse, N.Y.

Program Theme: Improving communication

Costs: Registration - Members \$3.00/person
- Students \$1.00/person

Banquet - Pot Roast \$4.50/person

Room - Single \$12.00/night
- Double \$16.00/night
- Triple \$18.00/night

It is suggested that you make your room reservations as soon as possible after receiving this announcement. Please remember that your presence at the meeting can go a long way toward making the program a success. We are hoping to see you there!

Sincerely,

Richard H. Schaefer
Chairman, Program Committee
NY Chapter, American Fisheries Society

Elmer Wagner
Chairman, Program Committee
NY Chapter, American Wildlife Society

D. Stovel

November 20, 1968

Dr. D. L. Gilbert, Acting Head
Department of Fishery and Wildlife Biology
Colorado State University
Fort Collins, Colorado 80521

Dear Doug:

I've been planning to write to you for some time but kept putting it off in hopes I could send you a copy of the final program for the up-coming meeting. However, it still isn't off the press, so I'll delay no longer.

First, I was pleased to learn from Bill Pearce that you will be our banquet speaker. Ed Zern had been suggested at one time as a possible speaker but then everyone agreed we would rather listen to you if we could get you. The topic you proposed in your letter of November 15 is fine, although we won't be able to get it printed into the program which has already gone to the printers.

The theme of the meeting will be "Needs and Methods for Improving Communication in the Conservation Field". The meeting place will be the Holiday Inn Motel at the junction of Buckley Road and the New York Thruway (near Exit #36), Syracuse.

The program for Friday morning, December 6, shapes up this way:

8 - 9 AM Late registration
9 - 12 PM Panel discussion: The Problems and Needs for Improved Communication Between Professionals.

Moderator: Dr. Douglas Gilbert

Panelists: For Administration - A.G. Hall,
Director of Division of Fish and Game

Dr. D. L. Gilbert

November 20, 1968

For Research - Howard Loeb, Sr. Aquatic
Biologist

For Management - Anthony S. Taormina,
Regional Supervisor of Fish and Game

For Law Enforcement - Anton Semrov,
Regional Conservation Officer

For State Legislature - Harold T. Mason,
Secretary of the Senate Finance Committee

I'll send additional background material about the
panelists soon.

In accordance with the wishes of the Program Committee,
I have instructed each panelist to be prepared to talk for
10 to 15 minutes on his assigned field and to confine him-
self to communication problems and needs within the area
of New York State and mainly with respect to the internal
operations of the Conservation Department itself. Thus
the field of discussion has been narrowed down considerably.
I have advised panelists from the Department to discuss
with each other in advance what they will cover and try to
make their comments mesh. Mr. Mason's remarks, on the
other hand, will be distinct and devoted primarily to ex-
plaining how we fail to communicate effectively enough to
get the monies we feel we need and ask for to carry on
fish and game programs.

Some time ago I asked the panelists if they could pro-
vide written summaries of what they expected to say, but
no one wanted to do so. Looks like you may have to play
it by ear. However, I hope the information I'm giving you
will help make the job easier.

It is expected there will be a coffee break about
10:30 AM after the panelists have made their presentations.
During the break it is planned to have the audience write
down some questions on cards to be provided. After the
break some of these questions could be fielded by the panel
and discussed from the floor, also.

You will be introduced to the audience at the outset.
As indicated in your earlier letter you may wish to make
some opening remarks and then a final wrap-up at the end of
the morning session.

Dr. D. L. Gilbert

November 20, 1968

Enclosed is a check for \$500 from the Professional Fisheries Association of New York (now the New York Chapter of the American Fisheries Society) in compensation for attending our meeting. Incidentally, we intend to reserve a room for you at the Holiday Inn for Friday night.

I hope I've covered the essential items. See you at the meeting.

Sincerely,

Donald G. Pasko
Supervisor of Fish Management

Dr. Douglas Gilbert
College of Forestry &
Natural Resources
Colorado State University
Fort Collins, Colorado

Dear Dr. Gilbert:

My humble apologies for taking so long to confirm in writing our telephone conversation of August 6. At that time you indicated your interest and willingness to lead a panel discussion at the next joint meeting of the N.Y. Chapters of the American Fisheries and Wildlife Societies in December at Syracuse.

The topic for this panel discussion will be "Problems and needs for improved communication between professionals". This is shown in the enclosed tentative schedule, but final selection of panelists has not been made as yet.

We presume you will wish to fly to Syracuse arriving sometime Thursday, December 5, take in the program on Friday, including the banquet, and leave on Saturday. You will, of course, be reimbursed for necessary expenses in connection with attending the conference. A reservation at the meeting place will be made for your, and we will let you know exactly where this will be as soon as it is determined.

If you have any questions at all about the meeting, please don't hesitate to let us know.

We are delighted that you accepted our invitation, and with many of your other friends here we will be looking forward to your return to New York State.

Sincerely,

Donald G. Pasko

Albany, New York 12226

Dear Herb:

A meeting has been arranged by the program chairmen of our Societies to be held Monday evening, September 23, 1968 at the Regional office in Cortland. It has been suggested that this be a joint meeting with the executive committees of the two groups. Thus, I have informed the members of the executive committee of the Fisheries Society accordingly. Would you likewise notify your committee members?

It is planned to meet at the Downes Motel about 5 PM in order to have supper together.

Sincerely yours,

Udell B. Stone
President, New York Chapter
American Fisheries Society

UBS ed

MEMORANDUM

September 3, 1968

To: Program Committee Members, N.Y. Chapters American
Fisheries & Wildlife Societies

From: Dick Schaefer

It has just been brought to my attention that the scheduled date of our September meeting (26th) will be in conflict with the State Conservation Council meeting at Rochester (Sept. 25-28). I therefore suggest that we move our meeting date back three days to Monday evening, September 23. I trust that this date will be convenient to all of us and I will be looking forward to seeing you at that time.

Dick Schaefer

Chairman - Program Committee
N.Y. Chapter American Fisheries Society

Re: Joint meeting of program and executive committees,
State Chapters of American Fisheries & Wildlife
Societies.

I have recently sent a memo to the members of the program committees of both societies. It calls for a meeting on Thursday evening, Sept. 26 at 7 PM in the Cortland regional office. I would suggest that you contact Herb Doig and the members of both executive committees so that you might join us at that time. I plan to have a room at the Downes Motel where I think it advisable to meet about 5PM in order to have supper together.

There will be a joint meeting of the N. Y. Wildlife and Fisheries Society program committees at the Region #3 offices in Cortland on Thursday evening, June 20, at 7:30 P.M. You are invited to attend if you wish to join us. We are meeting at Downes' Motel on Church Street in Cortland at 5 P.M. so that we can go to supper as a group.

Scottsville, New York 14546

Dear Stoney:

This is to acknowledge your letter of 2 April concerning the possibility of a joint Fisheries Society-Wildlife Society meeting this fall. The Executive Committee of the New York Chapter, The Wildlife Society met on May 2 and agreed that a continuation of the precedent set at last year's joint meeting would be very desirable. Since program development is left pretty much up to the Program Committees, I would suggest that the members of these committees meet to discuss program ideas in the near future. If you see a value in a joint executive committee meeting, perhaps we could get together in late May or early June.

It is unfortunate that the Program Committee Chairman for your Chapter lives on Long Island as I have oriented our entire Program Committee around its chairman, James Williams, Community College of the Finger Lakes, Canandaigua and it will be rather inconvenient for the committees to meet. I am sure that Jim and Dick Shaefer can work out some mutually acceptable arrangement, however.

The Wildlife Chapter is planning an early fall field meeting to discuss a topic of interest to Wildlifers. I would suggest that although the Fisheries Chapter members are welcome to attend our field meeting, it is the December meeting where a joint program would be most desirable. We are looking towards the potentials of the Sherburne Conservation Education Center for our field meeting and a related theme would be especially appropriate for the Joint Meeting.

Stoney, I will ask Jim Williams to contact Dick Schaefer to arrange their next meeting and will leave it up to them to keep us informed. If you have additional or differing thoughts on the subject, please let me know.

Sincerely,

Herbert E. Doig
President, New York Chapter

Dear Herbs

Bill Bentley has asked me to attend the Thermal Pollution Meetings at Portland, Oregon on June 3 - 5, 1968. Thus, I will not be able to attend the program planning meeting of our Societies on June 4th. However, Bob Zillion has agreed to attend the meeting in my place and possibly William Flick will also be able to attend.

I believe that it is planned to meet in Richard Schaefer's room at the Central Hotel in Albany about 5:00 P.M. on June 4th.

Sorry I can not be present but I will look forward to the results of your session.

Sincerely yours,

Udall B. Stone

Dear Herb:

Our Society has indicated the desire to have a joint session with the N.Y.S. Chapter of the Wildlife Society next fall. If this meets with your approval I expect that our Executive Committees should meet to discuss some of the details. Possible we could get together some time during the latter part of April in Albany.

To: Udell B. Stone
From: Richard H. Schaefer

Jim Williams and I have communicated and have tentatively agreed to meet in Albany on the evening of Tuesday, June 4, to discuss plans for this year's joint Wildlife Society-Fisheries Society annual meeting. We both think it desirable for the presidents of the two societies to join us at this time to offer advice and suggestions. Would you, therefore, please plan to attend.

I intend to have a room at the Central Motel (Central Avenue) on the proposed date. Perhaps the four of us could meet there around supper time, have a meal together, and then return to the motel for our discussion. If necessary, we could continue our business on the following morning.

If the above schedule must be modified because of prior commitments, I would appreciate hearing from you as soon as possible in order to make the necessary changes.

Fish & Wildlife Resource Conference
Syracuse Country House
December 8 & 9, 1967
Release on receipt
Robert E. Myers, Member
Program Committee
New York Chapter of Wildlife Society
222 Redfield Avenue
Fayetteville, New York

A joint Fish and Wildlife Resource Conference is being held today and tomorrow, December 8th and 9th at the Syracuse Country House by the New York Chapter of the Wildlife Society and the Professional Fisheries Association of New York.

Objectives of these professional organizations include the establishment and maintenance of the highest possible professional standards in the field of fish and wildlife in New York State, and the development of all phases of fish and wildlife management along sound biological, economic, and social principles. Membership of these organizations includes New York State Conservation Department personnel, college professors, employees of the U. S. Soil Conservation Service, Cooperative Extension Service personnel, and others with fish and wildlife interests.

"Professionalism - Prospective and Purpose" is the theme of the meeting. The

"Professional demands in the past and those expected in the future" will be discussed from the Administrative level by Mr. Fred G. Evenden, Executive Secretary of the National Wildlife Society, Washington, D. C. "Demands for the Research Specialist" will be presented by Dr. Daniel Thompson, Leader, Cooperative Wildlife Research Unit, Cornell University, Ithaca, New York, and "Management Specialists" will be discussed by Mr. Frank C. Edminster, Ithaca Retired Soil Conservationist, Resource Development Division, U. S. Soil Conservation Service.

"Formal Professional Training" will be reviewed by Dr. Douglas Gilbert, visiting professor in Wildlife Conservation at Cornell University from Colorado State University. "Inservice Training Program As a Means of Self Improvement" will be discussed by Mr. Wallace L. Anderson, State Conservationist, U. S. Soil Conservation Service, Syracuse, N. Y.

Mr. Robert Hutton, Executive Secretary of American Fisheries Society, Washington, D. C. will advise the group on "How to Improve One's Professional Image".

A wildlife chapter subcommittee has been studying current developments and evaluating potential effects of pesticides on fish and wildlife resources. The following resolution will be presented to the chapter concerning the safe disposal of empty pesticide containers:

Agricultural Research Service of the U. S. Department of Agriculture to instigate an immediate and active research program for the disposal of surplus pesticides and containers that can be used as a practical resolution of these disposal problems as they exist on the farm and in the home. We further urge attention to the use of possible alternate containers and/or the development of containers that are more easily and completely emptied".

(END)

Mr. S. V. Simkins
Paul Smith's College
Paul Smith, New York

Dear Steve:

On January 8, 1969 an executive meeting of the New York State Chapter American Fishery Society was held in Albany. At this meeting you were appointed to act as Chairman of the Professional Standards Committee. Other members of the group are as follows:

Daniel Plosilla - Fish Research Unit - Raybrook, New York

William White - Fish Management Unit - Raybrook, New York

If you can accept this position would you kindly notify the above members of their selection. If for any reason you wish a substitute, or addition, in the committee membership, feel free to contact me regarding this matter.

At the meeting several objectives for your group were discussed and these are listed below:

1. Investigate the material that is being used by High School guidance counselors to inform students of job opportunities in the fishery field. If their material is inadequate consider the possibility of obtaining literature for the schools in the State from the American Fishery Society, or some other source. At the next business meeting you could submit the following information:

A. Needs. B. Solution. C. Cost.

2. Some fishery workers in the State have had little academic training in fishery biology and associated subjects. Prior to the next business meeting you could study this situation and determine the feasibility of having a short training course set up for these men.

3. There are some members interested in having standards set up for fishery biologists in the State. It probably would be advisable to explore the needs for such standards and the pro's and con's of having biologists in the State licensed. If licensing seems advisable the procedure and possible standards for licensing could be presented at the next meeting. Possibly one of the foresters or surveyors could give you some thoughts on this.

I hope you will be able to accept the position of Chairman of this committee. Your background should be an asset in solving some of the problems outlined.

Inclosed are two extra copies of this letter which you might want to inclose when you contact the other committee members.

Sincerely yours,

William A. Flick
President
New York State Chapter Am Fishery Soc.

Dear Stoney:

With regrets, I'm afraid that I must resign as Chairman of the Professional Standards Committee. I expect that I will be starting my new duties in Albany in the near future. With the change in jobs and the confusion of trying to sell one house and locate another, etc.; I am sure that I would not be able to give the Chairman's assignment the attention it needs and deserves.

I will be glad to continue to serve as a Committee member, if you like. Naturally, I will also be glad to pass on any material I have managed to gather to the new Chairman.

Yours sincerely,

Dear Bob:

Sorry for the delay in answering your request for my Committee roster. As of now, the Professional Standards Committee consists of myself, Eli Dietsch, Bill Youngs, Charlie Fontana, John Poole, Howie Loeb, and Bill Bentley. I thought it would be fairer to Al Eipper not to ask him to serve in view of the thoughts he expressed in the letter I showed you.

I have not tried to find a replacement for Al since I know you would like to send out the Committee lists. Perhaps you can include an announcement that any interested members who would like to serve on this Committee can contact me. The committee is probably large enough now, though.

Incidentally, I reminded Howie Loeb about his dues and am assuming that both he and Bill Youngs have paid up by now.

Yours sincerely,

Dear Mr. Robinson:

In my work as Director of Conservation Research in the League, I am in close touch with Mr. P.A. Douglas, Sport Fishing Institute, Washington, D.C., in or common interest in protecting and conserving our valuable fish and aquatic ecology, and at the moment we are particularly concerned over the sudden influx of modern nuclear electric generating plants; either already built or proposed near the waters of New York State, and our main interest is in thermal pollution that can be so damaging or destructive to our fish and other marine life. In this connection, in 1963, we witnessed a tremendous kill of striped bass and other species at the Indian Point, N.Y. nuclear plant of Gen Edison, that was beyond belief, which we are now convinced was caused by thermal pollution.

We are now faced with a still greater damaging situation through the introduction of a Bill No. A 6305 which Governor Rockefeller sponsored; had rushed through our Legislature in its last few days of this session and hastily signed into law, which we consider an extreme menace and which we are demanding be repealed immediately. Copies of our data are enclosed.

Mr. Douglas has suggested that I contact you, for I imagine he feels we may have a common interest in trying to control thermal pollution from such plants, and I would ask that you give this matter your kind attention and honor me with an early reply.

Sincerely,

Harvey E. Hauptner

Atom power plant in hot water

Florida Power & Light's Biscayne Bay facility is under fire from conservationists for threat of thermal pollution. Outcome could affect nuclear plants all around the country

An atomic battle royal is heating up in Greater Miami between conservationists and government officials on the one hand and Florida Power & Light Co. on the other.

The fight revolves around a huge nuclear power plant FPL now has under construction on the shores of Biscayne Bay. In this case, the use of the atom to generate electricity isn't at stake. The issue is what conservationists and other foes of the project term "thermal pollution"—a change in the ecological balance of the bay caused by dumping back into it water that has been used to cool the power plant's condensers. The result would be to raise water temperature in some parts of the bay anywhere from 10F to 18F above normal summer temperature of 92F.

No one is willing to predict what the outcome will be. For one thing, there is a huge lack of solid scientific evidence in the field of ecology—the study of mutual relations between organisms and their environment. But, in the words of an Atomic Energy Commission man: "The conservationists are in a fight to the death on this one. What happens in Miami could affect nuclear power plants all over the U.S."

Remote area. The battle of Biscayne Bay started quietly enough, when FPL ordered two 432,000-kw turbo generators and two boilers to expand its conventional power plant facility at Cutler, in Dade County. However, because of opposition from local residents, permission to add to the Cutler plant was denied by the Metropolitan Dade County Commission.

FPL engineers—headed by McGregor Smith, board chairman and himself a conservationist—went looking elsewhere. They came up with an 1,800-acre site at Turkey Point, a remote and swampy area 20 mi. south of Cutler, where the nearest residents and farms are 4 mi. distant. The Metropolitan Commission granted its permission to operate the two conventional units at Turkey Point. The cost, including transmission, was estimated at \$22-million.

If FPL had let things alone at this point, the controversy would not have arisen. The conventional, oil-burning power plant would have required 275,000 gal. per minute of coolant water—hardly enough to stir up conservationists.

Uproar. But planning for additional power for the growing area and believing that atomic power would be more economical over the long haul, FPL ordered two nuclear units rated at 760,000 kw each.

These will bring the use of condensing water at Turkey Point up to 1.8-million gal. per minute by late 1971, while increasing the temperature of the water radically.

This was the signal for the conservationists to rise in an uproar. Some insist that this volume of hot water will destroy the delicate marine ecology in Biscayne Bay and ruin a unique sub-tropical estuary.

Rebuttal. Smith derides the claim, and he cites figures to back his po-

sition. He notes that per minute add up to more than 300 acre/ft. of water in an hour. In any 12-hour cycle, that's 3,600 acre/ft. or the equivalent of 900 acres, four feet deep.

The average depth of Biscayne Bay is about seven feet. The bay takes in an area of 140,800 ac. sq. mi., or 140,800 ac. sq. mi., that the bay presently has about 1-million acre-ft. of water at low tide. Some 280,000 ac. of water flow in and out of the bay each tidal cycle, though the average depth is only two feet.

"It can readily be seen," says Smith, "that the water discharged is quite different from the water with the entire body of the bay, or even that of the bay at low tide. Therefore, the chance of increasing the temperature of any appreciable part of the bay, as some people claim, is very small."

Besides, as he points out, the truth of the matter is that nothing is known about the natural tolerance of species in the south Florida estuary. He explores the emotional aspects of the term "thermal pollution" and says it is more meaningful than "thermal effect," he says.

Studies. To get at the truth of the matter, he says, the University of Miami's Institute of Marine Studies is supporting a one-year study that will take the form of a survey of what life exists in the bay where the plant is under construction, and its distribution in relation to environmental factors. The bay also will be sampled for organic and inorganic pollutants and how it affects plant distribution.

A second grant—aimed at providing some basis for a study expected shortly from the National Water Pollution Control Administration. This will be a study of the fish, crustacean and mollusk-dwelling animals, such as oysters.

Dr. Durbin C. Taylor, a professor at the University of Miami, believes it's possible to make accurate estimates of the temperatures that bay fish can tolerate. But he is not convinced there will be any effect on the ecology of the bay from the nuclear units going into operation. "One thing, he says, must be done: the water temperature would bring it close to normal. And when the units are running, the temperature would approach normal."

"They don't have any protein," he says, "while he doesn't believe the bay would be affected."

Sounding the nation's troubled waters

The subject of thermal pollution—and the probable need for quick legislative action—has caught the eye of Senator Edmund S. Muskie (D-Me.).

Last fall, Muskie asked Atomic Energy Commission authorities for their position on regulating thermal discharge from nuclear power plants and learned that AEC claims no authority on the matter—either under its licensing regulations or under an executive order that calls on all government agencies to provide leadership in cutting water pollution.

So Muskie's Public Works subcommittee on air and water pollution has been holding hearings—so far in the states of Maine, Florida, and Vermont, and in Washington, D.C.—and has discovered:

- Little real effort has been made to control waste heat discharge from nuclear plants.

- There is almost no specific information available to determine the ecological effects of large-volume hot water discharge from a nuclear facility.

What Muskie proposes to do is not yet clear. First he wants to hold more hearings (probably in the Midwest and in the Pa-

Senator Edmund Muskie

cific Northwest) and compile more data.

He has encountered little argument about the size of the potential thermal pollution problem, however. By 1980, statisticians agree, roughly one-sixth of total water run-off in the U.S. will be needed for industrial cooling and condensing purposes. And most of this will be linked directly to nuclear power production. Just one power plant due to be built on the Connecticut River reportedly will need up to half that river's flow for cooling purposes.

Gentlemen

Increases in electric power load demands and further substantial increases anticipated in the immediate future make it absolutely essential that an additional nuclear energy generating plant be constructed at Montrose, New York, as soon as possible. This project is most urgent to enable this Company to fulfill its obligation to supply adequate electric power to meet the demands of the consuming public.

As you are aware, we already have acquired a number of parcels of property adjoining your property at Montrose and the acquisition of your parcel is required to provide the necessary site for the proposed generating plant.

In the course of discussions with you, we have offered to pay a fair and reasonable price to purchase your property but, as yet, this offer has not been accepted. In addition, we have proposed to acquire for you several suitable sites as a substitute for your property, but these offers, too, have not been acceptable to you.

Under the circumstances, I must advise you that unless mutually acceptable terms for our acquisition of your property are agreed upon on or before July 1, 1968, we shall have no alternative but to take the necessary steps to acquire the subject property by the institution of condemnation proceedings.

In light of our cordial relationship in the past, we are reluctant to pursue our legal remedy of condemnation unless it is absolutely necessary and would, therefore, urge that you make every serious effort to consummate the conveyance of your property to us in an amicable manner for a fair and reasonable consideration before July 1, 1968. We are available to meet with you for further discussions at any time.

Very truly yours

W. Donham Crawford

(OVER)

Dear Mr. Robinson:

We are not interested in this from any political angle, but the gentleman behind this entire deal that could create a Frankenstein that even the builders may not be able to control, while at the same time, leaving our fish and all other types of marine life open to damage and destruction, happens to be the same man seeking to become the President of the United States, and our concern is that if he in any way has committed the State of New York to become a vassal of the "Power Galleth," then what might he do as our President?

HUDSON RIVER FISHERMEN'S ASSOCIATION

Box 725

Ossining, New York 10562

WORK FOR REPEAL OF
6305 or face
the possibility of
losing ALL of your
fishing.

This Bill can result in the death of every aquatic ecosystem in the State. We know too little of the effects of thermal pollution to commit ourselves to MAXIMUM DEVELOPMENT.

This Bill MUST be Repealed. It negates all conservation law and leaves the living natural resources of the State at the mercy of the utility executives and engineers. They are hardly the best equipped to make such decisions. The state is also given power to condemn any lands for them. Nuclear power is an unknown area; thermal pollution has killed millions of fish. **REPEAL**

IN ASSEMBLY

6305) Introduced by February 20, 1968
Messrs. TRAVIA, WEINSTEIN, DURYEA

STATE OF NEW YORK
AN ACT

To amend the public authorities law, in relation to the powers of the power authority of the state of New York, and of New York state atomic and space development authority

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

- 1 Section 1. Section one thousand one of the public authorities
- 2 law, as amended by chapter one hundred forty-six of the laws of
- 3 nineteen hundred fifty-one, is hereby amended to read as follows:

4 § 8. Section one thousand fourteen of such law, as am
5 chapter one hundred forty-six of the laws of nineteen
6 fifty-one, is hereby amended to read as follows:
7 § 1014. Public service law not applicable to authority
8 tent provisions in other acts superseded. The rates, set
9 practices relating to the generation, transmission, distrib
10 sale by the authority, of power to be generated from th
11 authorized by this title shall not be subject to the pro
12 the public service law nor to regulation by, nor the p
13 of the department of public service, but shall be regi
14 determined under the provisions of the contracts enter
15 the authority as provided in sub-paragraph six of s
16 thousand five of this chapter. The provisions of the p
17 ice law and of the conservation law and every other la
18 to the department of public service or the public se
19 mission or to the conservation department or to the
20 powers or duties assigned to the division of water
21 control by chapter six hundred nineteen, of the laws
22 hundred twenty-six, shall so far as is necessary to mal
23 effective in accordance with its terms and purposes
24 to be superseded, and wherever any provision of la
25 found in conflict with the provisions of this title or
26 with the purposes thereof, it shall be deemed to be
27 modified or repealed as the case may require.

Re: Resolutions Committee - New York Chapter - American Fisheries Society

When you hold a meeting of your resolutions committee the following two items should be included in your agenda:

1. The need for a resolution opposing thermal pollution (see minutes of March 29, 1968 meeting).
2. The need for a liaison man to represent the N.Y. Chapter in meetings with State Legislative members to discuss fishery programs and salary needs.

Scottsville, New York 14546

Dear Stoney:

I have just received the pamphlet entitled, "Thermal Pollution of Cayuga Lake by a Proposed Power Plant" which was put together by a committee under Al Eipper.

I wonder if it wouldn't be wise for the New York Chapter of the American Fisheries Society to come out and support such a proposal. Many of us in the Department are now either working with or confronted with the installation or expansion of nuclear plants; and I, for one, am in complete agreement with the conclusions of the group and would like to see the New York Chapter go on record as favoring the requirement that all nuclear plants have the enclosed type of cooling system mandatory.

I would appreciate your thinking on this.

Sincerely,

John D. Gould
Regional Supervisor

RECEIVED

July 23, 1968

Mr. John D. Gould
Regional Supervisor
N.Y.S. Conservation Department
Stamford, New York 12167

Dear John:

With reference to your letter of July 18, 1968 in regard to Thermal Pollution I agree that it might be desirable for our Society to go on record favoring an enclosed type of cooling system for certain nuclear plants. I am not sure, however, if this should apply to all plants - for example those on the Great Lakes might not need to be included. I would definitely favor the restriction for all plants on the Finger Lakes or Rivers of the State.

I have already asked Don Longacre, Chairman of our Resolutions Committee to have his committee consider a resolution on nuclear plants for presentation at our December meeting.

Sincerely yours,

Udell B. Stone
Sr. Aquatic Biologist
